Item #: GFA51

Name: English 1956 Excelsior Motorbike named "Doris"

Desc: 1956 Excelsior Consort F4S 98CC (Villier 4F) 2 Speed

It was in regular use. mainly on club runs. It is VERY original. still having the rare Walker rear light. genuine Burgess silencer. rechromed original levers. new Villiers headlight rim and reflector. working Smiths chronometric speedo. Dunlop wheel rims (powder coated silver to replicate the original dull chrome) and retaining the cylindrical toolbox so often missing. A battery was fitted for a brakelight when it was my daily transport. The lighting is 6 volt direct. but suprisingly good. The gearbox is a 2 speed thumb change. the suspension is undamped Webb girders up front and undamped plunger boxes at the rear. Braking is best described as adequate for the performance!

Category: Objects

Price: \$8,900.00

Circa: 1950
